

Continents knowledge organiser

Key vocabulary	
continent	A large land mass, usually made up of a group of countries.
equator	An imaginary circle around Earth. It divides Earth into two equal parts: the northern hemisphere and the southern hemisphere.
landmark	An object or a feature of a landscape or town that has importance or makes a place easily recognizable.
atlas	A book of maps.
population	The number of people living in a place.
country	Land where all people follow the same laws.

There are seven continents.

It is warmer near the equator and gets colder the further away from the equator you travel.

We live on the continent of Europe.
